

A Passion to Heal

By Eron Manusov MD

Life, art, music, and love HEAL.

Physicians, medical students, nurses, and health workers HEAL.

To touch is to HEAL.

To listen is to HEAL.

To share is to HEAL.

To love is to HEAL.

Are we special because we can invade and walk where others don't?

No, but we can HEAL when we do we care with compassion.

To learn is to HEAL.

To teach is to HEAL.

To listen is to HEAL.

To love is to HEAL.

Medicine is human and to feel is human.

Can we forget that we are human? Certainly.

To care is to HEAL.

To think is to HEAL.

To listen is to HEAL.

To really hear, care, and act,
HEAL.
