

9/17 Tues

end ~~etc~~ levels.

lot 231	~ 10-20cm	still overburden.
222	~ 55cm	still overburden
210	~ 37cm	"
214	~ 47	"
204	~ 49cm	} almost no more overburden, sandstone
217	~ 37cm	
220	100cm	} sand overburden overburden
216	100cm	mostly post exposure, Few 'sand spots'

Rain Showers Tues Pm ends digging early.

9/18/ Wednes day.

continue to end of overburden. overburden is
sand layered in small lenses distinct by color,
very deeply (~ 110) in N E corner block
especially N112/E63, N116/E63, up to 1 meter
depth; fresh roots, tree limbs, leaves etc.
matted in w/ sand.
