Professor P.A.M. Dirac
Department of Physics
Florida State University
Tallahassee, FL 32306
U.S.A.

Dear Professor Dirac:

I was delighted to receive your letter of January 29th and to read that you will be coming to the Einstein Centennial Symposium in Jerusalem next month and that your wife will accompany you.

As you know, I have been in touch with your son in Copenhagen and I very much hope that he will find it possible to attend the Symposium as well.

We will be very pleased and honoured if you will deliver a paper on the Early Years of Relativity at Session XII on Tuesday afternoon, March 20th. This session opens the Physics Section of the Symposium, and your talk will be a valuable and fitting addition to this discussion.

Thank you for the suggestion, in your letter of February 2nd, to invite Mrs. Esther Salaman. A letter of invitation has been sent to her and I hope she will be able to participate. I am sure her recollections would be of much interest to all the participants.

Looking forward to seeing you in Jerusalem.

Sincerely yours,

Aryeh Dvoretzky
President
